Academic Procession

ORDER OF THE ACADEMIC PROCESSION

President, Board of Trustees, and
Administrative Officers
Official Guests
Faculty
Candidates for Advanced Degrees
Class of 2018

SIGNIFICANCE OF THE ACADEMIC COSTUME

The significance of the academic costume is determined especially by the sleeves and hoods.

Doctors wear the round bell sleeve; the gown is faced down the front and barred on the sleeves with black velvet or color indicating the degree; the doctor's hood is large. The doctor may choose to wear the gold tassel on the cap.

Masters wear the long, closed sleeve, with a slit near the upper part of the arm; the master's hood is of more moderate size.

Bachelors wear the long or pointed sleeve. The color of the tassel indicates whether the degree is in the field of arts (white), fine arts (brown), music (pink), or science (golden yellow).

Commencement Speaker

Jeffrey R. Holland

Elder Jeffrey R. Holland was ordained a member of the Quorum of the Twelve Apostles of The Church of Jesus Christ of Latter-day Saints on June 23, 1994. At the time of this call, Elder Holland was serving as a member of the First Quorum of the Seventy, to which he had been called on April 1, 1989.

From 1980 until his call as a General Authority, Elder Holland served as the ninth president of Brigham Young University. He is a former Church commissioner of education and dean of the BYU College of Religious Education.

Elder Holland was a student leader and varsity athlete at Dixie High School and Dixie College in his native St. George, Utah. He received his bachelor's and master's degrees in English and religious education, respectively, from Brigham Young University. He also obtained master's and doctor of philosophy degrees in American studies from Yale University.

Elder Holland was active in professional educational activity prior to his call to full-time Church service. He served as president of the American Association of Presidents of Independent Colleges and Universities (AAPICU), on the board of the National Association of Independent Colleges and Universities (NAICU), and as a member of the National Collegiate Athletic Association's (NCAA) Presidents' Commission. For his work in improving understanding between Christians and Jews, he was given the Torch of Liberty Award by the Anti-Defamation League of B'Nai B'rith. He has served on the governing boards of a number of civic- and business-related corporations and is the author of fifteen books, two of which he coauthored with his wife, Patricia.

Elder Holland was born December 3, 1940, to Frank D. and Alice Bentley Holland. In 1963 he married Patricia Terry. They are the parents of Matthew, Mary Alice, and David; parents-in-law of Paige, Lee, and Jeanne; grandparents of thirteen grandchildren; and great-grandparents of one great-grandchild.

Honorary Doctoral Degree

Michael Okerlund Leavitt

Michael Okerlund Leavitt is the founder of Leavitt Partners, which helps clients navigate the future as they transition to new and better models of health care. In previous roles Mike served in the cabinet of President George W. Bush and as a three-time elected governor of Utah.

Mike grew up in Cedar City, Utah, where his upbringing was rooted in the values of the American West, with an emphasis on hard work and common sense. He earned a bachelor's degree in business while working in the insurance industry. In 1984 he became chief executive of the Leavitt Group, a family business that is now the nation's second-largest privately held insurance brokerage.

In 1993 Mike was elected governor of Utah. He served three terms (1993–2003). In 2003 he joined the cabinet of President George W. Bush, serving in two positions: first as administrator of the Environmental Protection Agency (2003–2005) and then as secretary of Health and Human Services (2005–2009). At HHS, he administered a $750 billion budget—nearly 25 percent of the entire federal budget—and oversaw 67,000 employees.

He led the implementation of the Medicare Part D Prescription Drug Program. The task required the design, systematization, and implementation of a plan to provide 43 million seniors with a new prescription drug benefit. By the end of the first year, enrollments exceeded projections, prices were lower than projected, and seniors expressed high levels of satisfaction.

Mike's strategic ability can be seen in his redesign of the nation's system of quality and safety standards for imported goods. In the spring of 2006, President Bush assigned him to lead a government-wide response. Within months he commended a major strategic shift in U.S. policy on import regulation and trade.

A pattern of innovation runs throughout Mike's career. When he was elected governor, Utah's major freeway system was dangerously inadequate. Taking what some thought was a significant political and financial risk, Mike instigated a design-build system, creating cost and quality incentives between the state and its contractors. The project was finished in half the originally projected time and was well under budget.

Mike is, at heart, an entrepreneur. As governor, he organized a group of his colleagues to form Western Governors University. At WGU, degrees are earned based on competency rather than credit hours. WGU now has more than 60,000 students who reside in each of the fifty states and in several foreign countries. Enrollment is growing at 35 percent each year. In November 2008, *Time* magazine named WGU "the best relatively cheap university you've never heard of."

Collaborator is a word that comes up repeatedly when one examines Mike's background. His skill led his colleague governors to elect him as chairman of the National Governors Association, the Republican Governors Association,

and Western Governors' Association. His book, *Finding Allies, Building Alliances: Eight Elements That Bring—and Keep—People Together,* was released in September 2013 by Jossey-Bass Publishers and chronicles his expertise and passion for collaboration.

Mike is a seasoned diplomat and has led U.S. delegations to more than fifty countries. He has conducted negotiations on matters related to health, the environment, and trade. At the conclusion of his service in President Bush's cabinet, the Chinese government awarded him the China Public Health Award—the first time this award has ever been given to a foreign government official.

Brigham Young University is pleased to confer upon Michael Okerlund Leavitt the degree of Doctor of Public Service, honoris causa.
